Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is vague and indefinite what type of apparatus is intended by the claimed "touch system". For the purposes of examination, it will be interpreted as a system where as user provides input using their fingers, such as a keyboard.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 and 26-36 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cathcart et al. (USP 5,443,791).

Cathcart et al. teaches a method and apparatus for sample analysis comprising a mount for receiving s substrate, a dispensing device and an optical system. Column 6 lines 54+ teach gauge block(24) as a calibration system. Column 12 lines 46058 teach the optical systems control the positioning.

The specific reagents claimed in the apparatus claims have been considered. However, it is well settled the method of intended use of an apparatus (e.g. the specific

Art Unit: 1743

analysis the requires the specific reagents) is of no patentable moment with respect to the pending apparatus claims.

Election/Restrictions

Applicant's election of group I in the reply filed on 10/31/06 is acknowledged. Because applicant did not state whether the election is with or without traverse, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicants' correctly noted the typographical error that claim 9 was not included in the restriction requirement. Claim 9 is dependent upon claim 8 which is part of group I. Claim 9 will be placed in group I. The Office regrets any inconvenience this may have caused Applicant's.

A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
